

## 202201 ELT303 11284 - Principles of Electricity

○ c. electrolytes, ceramic		
o d. plates, dielectric		
QUESTION 12	1 points	Saved
ariable capacitors normally have a dielectric of		
○ b. mica		
○ c. Teflon		
● d. air		
QUESTION 13	1 points	Saved
n some capacitors there is a small amount of current that flow one plate, through the dielectric material to the other plate. Th s called current.		
a. conduction b. electrolytic c. leakage d. electrostatic		
<ul><li>a. conduction</li><li>b. electrolytic</li><li>c. leakage</li></ul>	1 points	Saved
<ul> <li>a. conduction</li> <li>b. electrolytic</li> <li>c. leakage</li> <li>d. electrostatic</li> </ul> QUESTION 14		Saved
<ul> <li>a. conduction</li> <li>b. electrolytic</li> <li>c. leakage</li> <li>d. electrostatic</li> </ul> QUESTION 14 Polarized capacitors are also known as capacitors. <ul> <li>a. variable</li> </ul>		Saved
<ul> <li>a. conduction</li> <li>b. electrolytic</li> <li>c. leakage</li> <li>d. electrostatic</li> </ul> QUESTION 14 Polarized capacitors are also known as capacitors. <ul> <li>a. variable</li> <li>b. electrolytic</li> </ul>		Saved
<ul> <li>a. conduction</li> <li>b. electrolytic</li> <li>c. leakage</li> <li>d. electrostatic</li> </ul> QUESTION 14 Polarized capacitors are also known as capacitors. <ul> <li>a. variable</li> <li>b. electrolytic</li> <li>c. electroplated</li> </ul>		Saved
<ul> <li>a. conduction</li> <li>b. electrolytic</li> <li>c. leakage</li> <li>d. electrostatic</li> </ul> QUESTION 14 Polarized capacitors are also known as capacitors. <ul> <li>a. variable</li> <li>b. electrolytic</li> </ul>		Saved
<ul> <li>a. conduction</li> <li>b. electrolytic</li> <li>c. leakage</li> <li>d. electrostatic</li> </ul> QUESTION 14 Polarized capacitors are also known as capacitors. <ul> <li>a. variable</li> <li>b. electrolytic</li> <li>c. electroplated</li> </ul>		Saved
<ul> <li>a. conduction</li> <li>b. electrolytic</li> <li>c. leakage</li> <li>d. electrostatic</li> </ul> QUESTION 14 Polarized capacitors are also known as capacitors. <ul> <li>a. variable</li> <li>b. electrolytic</li> <li>c. electroplated</li> <li>d. bipolar</li> </ul> QUESTION 15 When a capacitor and a resistor are connected in series, the time equired to charge and discharge the capacitor depends on whalled the	1 points	
a. conduction b. electrolytic c. leakage d. electrostatic  QUESTION 14  Polarized capacitors are also known as capacitors. a. variable b. electrolytic c. electroplated d. bipolar  QUESTION 15  When a capacitor and a resistor are connected in series, the time equired to charge and discharge the capacitor depends on whe called the a. CR time constant	1 points
